

ANNUAL REPORT

2023-24

“Education is not preparation for life; education is life itself” - John Dewey.

Education isn't just about learning, reading, writing and arithmetic at school. Instead, its about gaining the knowledge and the skills needed to become a better person and create a better society to live in.

We take immense pleasure in presenting the Annual Report of Global Indian International School and its succession of 15 years of service towards providing preeminent education. As it is an enduring lore to turn around and take a look at the prolific year that has gone by, this report showcases the achievements and glories of our school GIIS aspires to facilitate students within various other areas not only with good education but bringing all rounded development by not only keeping their knowledge confined to textbooks but by providing enough room to grow physically, mentally and morally supported by immense co-curricular and sports activities with discipline. The session was divided into three terms followed by periodic test, assessments progress reports and one to one parent teacher meetings.

Assemblies are an important attribute of a school's routine as it creates positivity and promotes value-based education. Each class takes turns to present an assembly based on the theme or the forthcoming national and religious festivals or special days. Students gave an exhilarating performance on Krishna Janmashtmi, Navratri, Ramayana, Guru Nanak Jayanti etc. Their electrifying performance on Republic Day aroused patriotism in every heart. Not only did these assemblies helped in inculcating values and ideas of various relationships but also motivated us to become better versions of ourselves. This is what we at GIIS try to do and bring change in the lives of our students.

GIIS also organised educational / field trips and excursions in this session. At Footwear Design and Development institute our students got an opportunity to understand the important skills required in the making of footwear. An educational trip was organized to Mehrangarh Fort, which enriched the student's knowledge about the finest fort which stands on a range of sandstone hill 400 feet above the inhospitable Thar Desert. Various other co-curricular activities and competitions were organised within the school. The students took part in wonderful initiatives by CBSE like Art Integrated Learning, Swachhta Awareness Programme, Pariksha Pe Charcha etc to churn their creative brains.

Games and sports are an integral part of a students' life. Students should also play games and sports to enjoy the health and vigour of life. Physical education, games and sports allow the development of full potential of human personality. Our school aims at encouraging students to participate in games and sports to enhance their sports skills. We are immensely proud and happy to inform that our students participated in tournaments at various levels.
